A white ceramic toilet and bidet set. The toilet is on the left with a white toilet paper roll mounted on the wall to its left. The bidet is on the right, sharing the same base. The wall behind them is made of large, light-colored rectangular tiles.

A large green plant with long, slender leaves, possibly a peace lily or similar, housed in a dark, textured cylindrical pot. It is positioned in the corner between the toilet and the sink area.

Two built-in rectangular shelves in the green wall. The top shelf holds a decorative seashell. The bottom shelf holds two white ceramic containers, one with a pump dispenser and one with folded white towels.

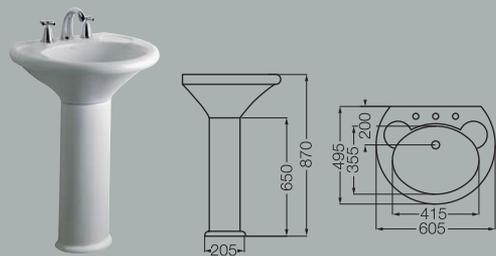

A white ceramic pedestal sink with a chrome faucet and two side handles. A small blue bar of soap sits on the edge of the basin. The sink is set against the green wall.

A round, silver-framed mirror mounted on the green wall above the sink.

A white ceramic towel rack mounted on the green wall, holding a white towel with a lace-like pattern at the bottom edge.

Two small white pots containing purple flowers, mounted on the green wall in the upper right corner.

A small, round, woven basket filled with various items, including rolled-up towels and soaps, sitting on the tiled floor in the corner.
